

Rutgers QEC & Beyond Seminar

Theory, Systems, and Applications in Quantum Computing

A weekly online seminar exploring the breadth of quantum computing, from error-correction theory and algorithms to software and applications.

ORGANIZED BY

Zihan Chen

Rutgers University

Yidong Zhou

Rutgers University

Supported by **FINQ**

37

Seminar talks delivered

12

Institutions represented

3

Seasons completed

SUMMER 2025 / FALL 2025 / SPRING 2026 / **FALL 2026**

Error Correction & Decoding

Circuit Synthesis & Compilation

- Quantum Algorithms & Applications
- Quantum Software & Architecture

Weekly online • One-hour sessions • Talk + Q&A

Join / Speak

Share research, tutorials or work in progress.
Attend to learn, ask questions and exchange ideas.
Open to students, researchers, and industry professionals from different disciplines and backgrounds.
